

Miners!

Chromebook Deployment:

We will be checking out Chromebooks over the next two weeks. You do NOT need to be issued a CCSD Chromebook in order for you to do your work. If you have your own Chromebook, or any other type of computer with a webcam then you do not need to have one checked out to you. We will deploy Chromebooks in the front of the school during the times below. If you come to check out a Chromebook, you must wear a mask and stay in your vehicle, or you will be turned away.

8/12/20 (10:00-12:00)

8/14/20 (10:00-12:00)

8/18/20 (10:00-12:00)

8/20/20 (12:00-2:00)

The following are safety guidelines for Sunrise Mountain High School students, families and staff during Chromebook check outs:

- Deployment will take place in the Student Parking lot (East Side - See attached map).
- All students and family members must remain in their car at all times.
- Students must bring their Sunrise Mountain High School issued student ID card for student verification.
- Pens will be provided upon request.
- A Sunrise Mountain High School staff member will approach the car to have the student write their name and student ID on provided forms and sign the CCSD Mobile Device Agreement 2020.

Upon completion of Chromebook deployment, each student will receive a Chromebook, charger, Mobile Device Guidelines and Expectations and Getting Started with your Chromebook. **If you have questions on Chromebooks, please contact Mr. Merritt, our AP at merricr@nv.ccsd.net**
